24-Hour Ambulatory
Blood Pressure Monitoring System

Oscar 2

SunTech Oscar 2

The Oscar 2™ system from SunTech Medical® sets the standard in 24-hour ambulatory blood pressure monitoring (ABPM) by utilizing proprietary motion-tolerant technology, meeting the highest clinical standards, optimizing patient comfort through innovation, giving clinicians practical interpretive analysis and incorporating the latest monitoring advances.

The Oscar 2 system is independently tested to meet the accuracy and performance requirements of the British Hypertension Society, the European Society of Hypertension International and the AAMI-SP10 standards. This system comes standard with both the patented Orbit™ ABPM cuff and interpretive software AccuWin™ Pro 4 and NOW features options for central blood pressure measurement and Bluetooth-connected True24 patient diary mobile app.

Standard Features Configuration Options

	ABPM	SphygmoCor	Bluetooth
SunTech Motion Tolerance	✓		
Clinical Validations	✓		✓
Patented Orbit ABPM Cuffs	✓	✓	
AccuWin Pro 4 software	✓	✓	✓

Orbit™ Blood Pressure Cuffs

SunTech's patented Orbit cuff is specifically engineered for ambulatory blood pressure monitoring applications. This cuff is designed with a soft sleeve that gently hugs the arm to maintain cuff placement and provide the ultimate in patient comfort for an extended period of time.

AccuWin Pro™ 4 Software

AccuWin Pro 4 is a user-friendly, Windows® based program that allows for configuration, analysis, interpretation and reporting of ABPM studies. You have the ability to rapidly decipher data, creating interpretive summaries, according to AHA, ESH, or JNC 7 guidelines, for:

- automated analysis of ABP levels for normality
- white coat syndrome
- overnight dipper status

Optional Features

SphygmoCor Inside: SunTech Medical has partnered with AtCor Medical, the Gold Standard in non-invasive measurement of central BP and arterial stiffness, to bring you the first and only ABPM Monitor with SphygmoCor inside. The Oscar 2 ABPM system delivers a patient-focused solution with unmet comfort, data reliability and confidence.

Bluetooth with True24: The True24 patient diary mobile app* is designed to pair exclusively with the Oscar 2 ABPM device with optional Bluetooth. This easy-to-use app provides a tutorial on ambulatory blood pressure monitoring and prompts the patient to enter information about their activity, posture or symptoms experienced after a BP measurement is taken. This diary information is extremely valuable, further assisting clinicians with interpreting the ambulatory blood pressure study data and making hypertension treatment decisions.

*True24 available only in the Apple iPhone App store

Technical Specifications

The Oscar 2 System Includes

Oscar 2 monitor
AccuWin Pro™ 4 (AWP4) software (Download)
2 Orbit™ ABPM cuffs (Adult and Adult Plus) Carrying pouch & patient belt
USB interface cable
User guide
Standard 2 year warranty

True24 App for Bluetooth Systems

Available in the Apple App Store

General Specifications

Validations: BHS (A/A), ESH, ANSI/AAMI SP10:2002
BP Technique: Oscillometry with step deflation
BP Range: 25-260 mmHg
HR Range: 40-200 bpm
Sampling Periods: 24 independently programmable time periods
Time Intervals: 5, 10, 15, 20, 30, 45, 60, 90 and 120 min.
Event Key: Program to allow additional patient readings
Data Storage: Flash memory stores up to 250 readings
Power Source: Two AA batteries
Weight: 284 grams, including batteries
Dimensions: 12 x 7 x 3 cm
PC Requirements: USB port, Windows® XP or later
App Requirements: Apple iPhone

SUNTECH

With more than 30 years dedicated to developing our world-class blood pressure technology, we are confident that we don't miss a beat - so you won't either. It's our legacy. It's SunTech Medical. It's The Difference In Clinical Grade.

- At the time of the original sale
- Prior to the end of the initial warranty period
- Prior to the end of the purchased extended warranty period

CPT Codes for ABPM Reimbursement

CPT code: 93784: Ambulatory blood pressure monitoring utilizing a system such as magnetic tape and/or computer disk, for 24 hours or longer; including recording, scanning analysis, interpretation, and report.

ICD-10 code: R03.0: White-coat hypertension. Elevated blood pressure reading without diagnosis of hypertension.

**Private insurance carriers may reimburse for additional indications under relevant ICD-10 codes.*
